

Vacancy

CLPe Solutions Limited
Contracting Business Department
Facilities Management Branch
Project Manager
[Ref. CLPeS-CB-FM-PM]

Founded in 1901 as China Light and Power Company Limited in Hong Kong, CLP Group has grown from a Hong Kong-based power utility into a leading investor and operator in the Asia Pacific Region's electricity market. Its portfolio comprises over 60 generation assets of gas, coal, nuclear and renewable energy, distribution and transmission assets and retail operations. The CLP Group is owned by CLP Holdings, a company listed on the Stock Exchange of Hong Kong.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for a high caliber professional to join our Contracting Business Department as Project Manager. The appointee will be assigned to work in the Hong Kong International Airport in Chek Lap Kok and responsible for the following major duties:

- Lead a multi-discipline team which is responsible for effective project management of maintenance contracts and electrical & mechanical projects at Hong Kong Airport
- Lead and manage a project team to liaise with clients / suppliers / contractors on the tendering, contracts administration, variations vetting and payments, as well as claims and disputes negotiation and resolution
- Review design submissions, method statements, risks management plans, resources plans, tender proposals, safety and health plans
- Prepare budget and forecast, and control costs to achieve targeted profit
- Manage detailed site supervision to ensure compliance with contract specifications and other regulatory requirements
- Provide timely project status updates, market trend and related information to the management
- Provide training and development for subordinates and support company staff development programs
- Other ad-hoc duties as assigned
- Work in the Hong Kong International Airport and 3RS project site area

Requirements:

- A recognized university degree in Engineering or relevant disciplines
- A minimum of 8 years' relevant working experience in design, operation, installation, testing, commissioning and project management of SCADA system
- Solid design experience in network architecture, control philosophy, PLC programming and HMI for SCADA system, e.g. UCOS / Rockwell / GE Fanuc

- Solid experience in operation and maintenance services of specialised airport systems; prior experience in large scale construction site environment preferred
- Sound knowledge of contractor management, interfacing with civil contractors and E&M contractors as well as managing site activities in multi-discipline infrastructure projects
- Corporate Member of HKIE (Control, Automation & Instrumentation Discipline) or equivalent qualification from other recognized engineering professional bodies is preferred
- Strong communication, leadership and organizing skills
- Customer-oriented, self-motivated, responsible and committed
- Good command in written and spoken English and Chinese
- Holder of Registered Electrical Worker
- Possession of a valid driving license
- Possession of Construction Industry Safety Card
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes on or before **18 May 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
