

Vacancy

CLPe Solutions Limited Contracting Business Department Facilities Management Branch Senior Technical Officer (2-Year Contract) [Ref. CLPeS-CB-FM-STO]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a whollyowned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for an energetic and innovative technical professional to join our Contracting Business Department. The appointee will be assigned to work in the Hong Kong International Airport in Chek Lap Kok and responsible for the following major duties:

- Work in a multi-disciplined team and carry out maintenance, installation and T&C activities for the maintenance and system improvement projects in the airport
- Coordinate site activities and supervise contractors' work performances and quality of E&M installations
- Coordinate with clients to plan, schedule, and set up proper procedures and precautions to meet the Company's requirements and Corporate Health, safety, Security, Environment & Quality (HSSEQ) documents standards
- Maintain system reliability, system availability and achieve service standards
- Conduct site checks and audits to ensure that the safety standards and good housekeeping practices are maintained at work sites
- Monitor site progress, attend site inspection and site meetings with relevant parties for site works coordination

- Prepare, review and update engineering documentation and reports
- Recommend changes to maintenance practices to improve work efficiency, safety standards and cost
 effectiveness.
- Other ad-hoc duties and shift duty as assigned

Requirements:

- Higher Diploma / Higher Certificate in Electrical, Mechanical, Building Services, Electronics or relevant engineering / building technology disciplines plus 5 years' relevant experience in design, installation, testing and commissioning and maintenance of Electrical / Mechanical / Electronics system OR
 Ordinary Diploma / Ordinary Certificate in Electrical, Mechanical, Building Services, Electronics or relevant engineering / building technology discipline plus 8 years' relevant working experience
- Experience in and / or knowledge in airport operation procedures and familiar with the airport environment would be an added advantage
- Familiar with airport HV/LV systems including but not limited to HV/LV board system, capbank, harmonic filter, earthing system in the airport
- Hard working, able to meet tight schedule and work independently with solid technical background
- Good interpersonal and communication skills
- Possession of Construction Worker Registration Card and Construction Industry Safety Card
- Possession of a valid driving license is preferable
- Holder of Registered Electrical Worker is preferable
- Customer oriented for building and maintaining relationship with clients
- Candidate with less experience will be considered for a lower position
