

Vacancy

CLPe Solutions Limited
Contracting Business Department
Infrastructure Branch
EV Projects Section
Senior Project Engineer (2-Year Contract)
[Ref. CLPeS-CB-I-EV-SPE]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

To cope with the rapid business growth of Electric Vehicle (EV) charging service, we are looking for an energetic and innovative engineering professional to join our Infrastructure Branch of CLPe Solutions Limited. Reporting to the Assistant Project Manager, the appointee will be responsible for the following duties:

- Work in a multi-disciplined team and assist managers to conduct work in relation to design and installations, interfacing with relevant parties, testing and commissioning, coordinating with other civil / E&M contractors and client's representatives
- Coordinate with clients to plan, schedule and set up proper procedures and precautions to meet the technical requirements and deliver the works on planned schedule
- Carry out pre-testing and commissioning, corrective and preventive maintenance for customer installed systems
- Implement and monitor the Health, Safety, Security, Environment and Quality (HSSEQ) System to meet project and statutory requirements
- May require reporting duty in non-office hours to handle emergency call and site issues or perform site meeting when necessary

Requirements:

- A recognized University degree in Building Services, Electrical, Electronics, Information Systems, Computer Science or relevant engineering disciplines with a minimum of 3 year's relevant working experience
- Working experience in consultancy services, engineering projects installation, maintenance works and ELV system will be an advantage
- Good interpersonal and communication skills
- Possession of Construction Industry Safety Card
- Candidate with a valid driving license (1 or 2) is preferred
- Candidates with less experience will be considered for a lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes on or before **9 October 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
