

Vacancy

CLPe Solutions Limited
Contracting Business Department
Power Engineering Branch
E&M Projects Section
Project Manager (Data Centre)
[Ref. CLPeS-CB-PE-E&M-PM]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

Fitting-out total solution services including layout design, cooling solution, design calculations of server hall equipment, i.e. server racks, in-row, CRAC units, UPS, PDU, etc.
- Formulate promotion and implementation plan for entering the Data Centre market
- Handle tender bid activities & general tender related enquires for Data Centre or Server Hall business
- Ensure that the sub-contractors carry out site installation works according to the in-house and regulatory requirements
- Coordinate with clients and consultant to plan, schedule, and set up proper procedures to meet the technical requirements and deliver the work on schedule
- Implement and monitor the Safety, Health, Environment and Quality system to achieve the required standards
- Ensure effective project management including budget planning, project program monitoring, cost

- control, material and resources planning to achieve the targeted profit
- Other duties as assigned

Requirements:

- A recognized university degree in Engineering or relevant disciplines
- A minimum of 8 years' relevant working experience with at least 3 years at managerial level
- Sound knowledge and proven experience in Data Centre solutions or system integrator business is required
- Possession of professional corporate membership in Engineering Institution would be an added advantage
- Excellent communications and presentation skills and experiences to deliver convincing presentation and communicate with clients through different communication channels in both verbal and written format
- Good project management skills and experiences in Data Centre or server hall fitting-out projects would be an added advantage
- Self-motivated, independent, and strong business acumen, able to work independently with ability to understand and exploit potential business opportunities
- Good command in written and spoken English and Chinese
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualifications, career history, current and expected salary, major achievements and personal attributes on or before **2 October 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
