

Vacancy

CLPe Solutions Limited
Contracting Business Department
Infrastructure Branch
Senior Project Engineer (2-Year Contract)
[Ref. CLPeS-CB-I-SPE]

Founded in 1901 as China Light and Power Company Limited in Hong Kong, CLP Group has grown from a Hong Kong-based power utility into a leading investor and operator in the Asia Pacific Region's electricity market. Its portfolio comprises over 60 generation assets of gas, coal, nuclear and renewable energy, distribution and transmission assets and retail operations. The CLP Group is owned by CLP Holdings, a company listed on the Stock Exchange of Hong Kong.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for an energetic and innovative engineering professional to join our Contracting Business Department. The appointee will be assigned to work in the Infrastructure Branch and responsible for the following major duties:

- Assist Managers to supervise a multi-discipline team and be responsible for design, interfacing with relevant parties, testing and commissioning, coordinating with other E&M contractors as well as clients' representatives
- Work out the commissioning plan, guide and lead the commissioning team to conduct all electrical tests as planned OR communication systems
- Coordinate with supplier(s) /subcontractor(s) and solve both technical and practical problems independently
- Prepare design and commissioning submissions, method statements, tender proposals, safety & health plan and correspondence
- Liaise with suppliers / subcontractors on tendering, contracts administration, variations vetting and payments
- Supervise and monitor the performance of suppliers and subcontractors
- Perform other ad-hoc duties as assigned

Requirements:

- A recognized University degree in relevant engineering disciplines, major in Electrical or Building Services or Electronic engineering plus a minimum of 3 years' relevant working experience
- Experiences in ELV / LV / HV systems particularly in transmission, distribution, and/or electrical systems OR communication systems including transmission backbone, telephone, closed-circuit television, public address, data network or digital display systems
- Familiar with commissioning of LV, MV (i.e. 11kV), HV and other D.C. and A.C. distribution systems in fulfilling relevant statutory and electricity ordinances OR communication systems in fulfilling clients' requirements
- Possession of Registered Electrical Worker is preferable, Construction Worker Registration Card, Construction Industry Safety Card and Confined Space Worker
- Customer-oriented, self-motivated, a good team player, able to work independently and meet tight deadlines
- Good interpersonal and communication skills
- Candidate with a valid driving license (1 or 2) is preferable
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpe@clp.com.hk giving a detailed C.V., including career history, major achievements and personal attributes on or before **16 February 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
