

# Vacancy

**CLPe Solutions Limited**

**Contracting Business Department**

**Lighting Branch**

**Project Manager (Lighting) (2-Year Contract)**

**[Ref. CLPeS-CB-LGT-PM]**

*CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.*

*CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.*

*CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.*

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for a high caliber professional to join our Contracting Business Department as a Project Manager (Lighting). Key responsibilities include:

- Responsible for effective project management of electrical, electronic and/or lighting projects
- Prepare, review and formulate tendering strategies for upcoming electrical, electronic and/or lighting projects
- Lead projects' design, installation and maintenance activities to achieve in a timely and cost-effective delivery and full compliance with safety and quality standard and relevant statutory requirements
- Handle tender bid activities and general tender related enquires
- Liaise and co-ordinate with internal and external stakeholders in relation with all project activities
- Ensure the planned and ad hoc maintenance works are completed according to the relevant standard
- Evaluate and select services contractors that meet technical specifications and engineering standards to achieve construction and operational targets. Devise and implement systems to manage the performance of contractors
- Co-ordinate with clients to plan, schedule, and setup proper procedures and precautions to meet the Company's requirements and Safety, Health, Environment and Quality (SHEQ) standards
- Ensure that the services contractors carry out site installation works according to the in-house and regulatory requirements
- Perform emergency call-out duties when required

## Requirements

- A recognized university degree in Electrical, Building Services, Electronics, Engineering or relevant disciplines
- A minimum of 8 years' working experience in electrical network or lighting system management
- Proven experience in project management and contractor management is required
- Good knowledge in Electrical Network design and Lighting system
- Good knowledge with CLPP Power (CLPP) or Highways Department (HyD) safety requirements and working environment together with knowledge in ISO 9001 would be an added advantage
- Excellent stakeholder management, networking skills experiences to manage customer relationship up to senior management level
- Excellent communications and presentation skills and experiences to deliver convincing presentation and reporting to clients and others through different communication channels in both verbal and written format
- Possession of professional corporate membership in Engineering Institution would be an added advantage
- Good knowledge on health, safety, security, environmental and quality management. Experience on auditing works would be an added advantage
- Good command in written and spoken English and Chinese
- Candidates with less experience will be considered for lower position
