

Vacancy

CLPe Solutions Limited
Contracting Business Department
Power Engineering Branch
Distribution Substation Section
Senior Project Engineer (11KV Plant) (2-year contract)
[Ref. CLPeS-CB-PE-DS-SPE]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for an energetic and dedicated candidate to join the Contracting Business Department of CLPe Solutions Limited. The appointee will be assigned to work in the Power Engineering Branch and responsible for the following duties:

- Responsible to carry out site activities including but not limited to supervision of subcontractors, material and utilization
- Responsible to carry out material forecasting and budget planning
- Assist in carrying out 11kV plant installation, RTU installation and tests, LV fuse board installation and pre-commissioning tests on plants within a tight time schedule.
- Assist in preparing handover acceptance reports and distribution substation plant delivery routes of agreements
- Coordinate with clients, Government officials and developers to plan, schedule, and set up proper procedures and precautions to meet the Company's requirements and Safety, Health, Environment and Quality (SHEQ) standards
- Other ad-hoc duties as assigned

Requirements:

- A recognized University degree in Electrical Engineering or relevant engineering disciplines
- Minimum 5 years' relevant working experience with sound knowledge on project management and 11kV plant erection and testing
- Understand and familiar with CLP SHEQ requirements, Code Of Practice (COP) 101 and CLP Power Supply Rules would be an added advantage
- Possession of a Construction Industry Safety Card and a valid driving license (1 and 2)
- Strong supervisory, communication and leadership skills
- Customer-oriented, self-motivated, a good team player and able to work independently and under pressure
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes on or before **16 July 2022**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <https://clp.to/engPICS>
