

Vacancy

CLPe Solutions Limited

Contracting Business Department

Facilities Management Branch

Senior Project Engineer (Mechanical Systems Maintenance) (2-Year Renewable Contract)

[Ref. CLPeS-CB-FM-SPE-M]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for an energetic and innovative engineering professional to join our Contracting Business Department. The appointee will be assigned to work in the Hong Kong International Airport in Chek Lap Kok and responsible for the following major duties:

- Responsible for effective management of maintenance contracts and system enhancement projects at airport
- Coordinate with clients, suppliers, contractors or related parties to meet project's requirements and requirements
- Prepare specifications for tendering, evaluating and selecting service contractors that meet technical requirements and engineering standards to achieve construction and operational targets
- Prepare the submission documents under the contract requirements
- Coordinate with clients or related parties to plan, schedule and set up proper procedures and precautions to meet the Company's requirements and Safety, Health, Environment and Quality (SHEQ) standards
- Arrange subordinates/subcontractors to conduct the routine maintenance works and consolidate the maintenance checklist

- Supervise subordinates/subcontractors' work performances
- Other ad-hoc duties and shift duty as assigned

Requirements:

- A recognized university degree in Mechanical, Energy, Building Services Engineering or relevant engineering or Facilities Management disciplines plus a minimum of 3 years' relevant working experience
- Familiar with design, operation, maintenance, installation, testing, commissioning and management of mechanical or building services system in plant facilities
- Possession of Construction Worker Registration Card and Construction Industry Safety Card
- Customer-oriented, self-motivated, analytical, able to work independently and meet tight deadlines
- Good interpersonal and communication skills
- Candidate with maintenance experience in sea water pumping system would be advantage
- Candidate with a valid driving license (1 or 2) is preferable
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes on or before **21 August 2022**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
