

Vacancy

CLPe Solutions Limited

Digital Solutions Department

Smart Solutions Branch

Senior Project Engineer (BMS) (2-Year Renewable Contract)

[Ref. CLPeS-DS-SS-SPE]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLPe Solutions Limited (formerly CLP Engineering Limited), incorporated in Hong Kong in 1985, is a wholly-owned subsidiary of CLP Holdings Limited with extensive experience in providing total energy solution. The company undertakes a variety of services including energy management solutions, distributed energy as well as power engineering, infrastructure and facilities management.

We are looking for an energetic and innovative engineering professional to join our Smart Solutions Branch. Reporting to the supervisor, the appointee will be responsible for the following duties:

- Conduct site visit, programming, installation, testing & commissioning and maintenance activities for Building Management System (BMS) for commercial buildings and government facilities
- Coordinate with various parties the site activities and supervise contractors' work performance and quality of BMS installations and maintenances to meet all contract programmes and requirements
- Prepare project programme, budget, site progress report and conduct engineering design
- Support pre-sales activities, conduct site inspection and prepare proposal
- Implement and monitor the Safety, Health, Environment and Quality (SHEQ) systems to ensure that the required standards are achieved
- Other ad-hoc duties as assigned

Requirements:

- A recognized University degree in Building Services Engineering, Electronic Engineering, Mechanical Engineering, or relevant engineering disciplines with a minimum of 3 years' relevant working experience
- Solid experience in BMS and HVAC's operation and maintenance
- Familiar with chiller optimization, energy saving solution, IoT and AI solutions would be an added advantage
- Possession of Construction Industry Safety Card
- Good interpersonal and communication skills. Able to work independently and meet tight deadlines
- Proficient in both written and spoken English and Chinese
- Candidate with a valid driving license (1 or 2) is preferred
- Candidates with less experience will be considered for lower position

Please apply by sending email to clpehr@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes on or before **25 August 2022**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website:
