

Vacancy

CLP Power Hong Kong Limited
Customer & Business Development
Business Strategy and Innovation
South China & Hong Kong Business Development & Support
Engineer II (2-Year Contract)
[Ref.: CLPP_CBD_BS&I_EII]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

Applications are invited for the above post in the South China & Hong Kong Business & Support of Business Strategy & Innovation Department. The appointee will be responsible for the following:

Major Duties:

- Handle applications of various energy efficiency funding schemes under Scheme of Control (SoC), with major responsibilities including assessment of energy saving achieved by the energy efficiency enhancement projects, communication with applicants the application requirements, arranging internal approvals and subsidy payments, monitoring of the application progress, etc.
- Organise meetings with various stakeholders for reporting and/or approval-seeking purposes
- Support enquiries from various stakeholders in relation to the funding schemes
- Communicate and coordinate with various internal parties to facilitate different reporting and smooth operation of work processes
- Support developing strategies to achieve targets of the funding schemes
- Assist in various analysis to support allocation of subsidy cost-effectively and identify insights for improvement of the schemes
- Assist in preparing progress report of SoC initiative achievement to the Government

Requirements:

- A recognized university degree or equivalent qualification in Building Services Engineering, Mechanical Engineering, Electrical Engineering or related disciplines, with a minimum 3 years' relevant experience in engineering capacity
- Experience in design, installation and operation of building services systems, energy audit and building energy assessment & management
- Experience in project management and contract administration
- Strong analytic and communication skills
- Customer-oriented, self-motivated, good team player, able to work under pressure and tight schedule

- Rich knowledge in energy efficiency technologies
- Excellent Command in written and spoken English and Chinese

Please apply by sending email to hrcd@clp.com.hk giving a detailed C.V., including career history, major achievements and personal attributes on or before **22 June 2021**.

Important: To facilitate our easy tracking please use a unique file name for all attachments and your email subject box in this format: BS&I_EII_Last Name_First Name_Other Names (if applicable)
