# Vacancy

**CLP Power Hong Kong Limited**
**Information Technology Group /**
**IT Management Office /**
**Enterprise Architecture**
**Senior Enterprise Architect**
**[Ref. CLPP-ITG-ITMO-EA-SEA]**

*CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.*

*CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.*

*CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.*

CLP has embarked on a journey to becoming a "Utility of the Future" which is customer-centric, agile and digitally-enabled. The company is launching strategic transformation initiatives across the business in which next generation technologies will play a pivotal role.

We are looking for passionate IT professionals to IT Management office within the Information Technology Group of CLP Power Hong Kong Limited. The successful applicant will be responsible for the following duties:

**Key Responsibilities:**

- Drive architecture design initiatives and provide architecture guidance across ERP, IT/OT, Customer Experience, Data analytics, business applications and other relevant technology domains in Utility Sector

- Establish, maintain and enforce enterprise architecture principles, best practices and policies that govern the use of IT across CLP Group in different IT domains in line with strategic business priorities

- Be an advocate of the architectural framework to promote the use of standards, patterns and facilitate a more agile and responsive IT environment for delivery and operations

- Apply architecture principles and governance mechanisms in Architecture review meetings with active contribution such as solutioning, technology adoption, data strategy, security and operation support

- Contribute to the design of the Target State Architecture and the development of the Architectural Roadmap with the aim to optimise the application landscape and technology portfolio for an efficient IT operation

- Plan and evaluate emerging technologies and drive innovative IT ideas in the development of strategic proposals through proof-of-concept projects
- Articulate the architecture vision and promote the adoption of IT strategic projects to senior stakeholders

**Requirements:**
- A recognised university degree in Information Technology, Computer Science, or related disciplines.
- At least 8 years of experience working in IT with some demonstrable experience in strategic projects
- At least 5 years of experience in a hands-on solution design and end-to-end SDLC, preferrable in cloud technology / platform
- At least 3 years of experience in business process design / business capability modeling / system functionality analysis, preferably in energy industry
- Demonstrate deep cross-domain understanding of technology capability across ERP, IT/OT, Customer Experience, Data analytics, and business applications in energy industry
- Proven project experience in leading architecture design in digital transformation programs
- Post-graduate qualification in business planning or related fields desirable
- Professional credentials in TOGAF, ITIL, DevOps, Agile, CICD or relevant disciplines desirable
- Excellent communication and leadership skills, as well as analytical, numerical, Strategic and innovative skills
- Good at stakeholder management and project management
- Proactive, inquisitive, performance driven and results oriented

Please apply by sending email to chr@clp.com.hk giving a detailed C.V. including current and expected salary, career history, major achievements and personal attributes on or before **18 January 2022.**
