Vacancy

CLP Power Hong Kong Limited
Information Technology Group /
Cloud Program & Infrastructure Transformation /
Cloud & Integration
Associate Cloud Architect
[Ref. CLPP-ITG-CPIT-CI-ACA]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLP has embarked on a journey to becoming a "Utility of the Future" which is customer-centric, agile and digitally-enabled. The company is launching strategic transformation initiatives across the business in which next generation technologies will play a pivotal role.

We are looking for a passionate IT professional to join the Cloud & Integration team within the Information Technology Group of CLP Power Hong Kong Limited. The successful applicant will be responsible for the following duties:

Key Responsibilities:

- Strengthen business users' awareness on Cloud & Integration practice, and help business
- Provide guidance on cloud service, cloud projects and integration of platforms in supporting the Tribes and Business Enablement team
- Review integrated platforms and discover any possibility of platform integration, drive improvement actions
- Communicate with Cloud Program Team in order to support the integration plans and cloud projects

Requirements:

- A recognised university degree in Information Technology, Computer Science, or related disciplines. Master's degree in a related field is desirable.
- 3-4 years of experience with Cloud Computing, Technologies and Architecture
- Current understanding of best practices regarding security measures and DevSecOps implementation

- Experience with microservice design, architectural patterns and container technologies like Docker, Kubernetes, and Helm

- Solid understanding in automation solutions and CI/CD pipelines, Infrastructure As Code and configuration management tools such as TerraForm and Ansible

- Cloud discipline of Microsoft Azure certifications and Alibaba Cloud certifications preferred

- Experience in Cloud Application Development, Cloud Sourcing, Cloud Vendor Assessment and Cloud Risk Management

- Professional credentials in ITIL, PMP, COBIT, ScrumMaster, DevOps, or relevant disciplines preferred

- Solid vendor management experience on regional scale, with considerable focus on outcome based scenarios

- Proven track record of problem solving and analytical abilities and able to use own initiative

- Strong communication and negotiation skills, as well as influencing skills in English. Cantonese & Mandarin Chinese language abilities highly regarded

- Good at facilitation, project management, change management and relationship management

- Demonstrable commitment to continuous learning

- Proactive, performance driven and results oriented

Please apply by sending email to chr@clp.com.hk giving a detailed C.V. including current and expected salary, career history, major achievements and personal attributes on or before **4 Jun 2022.**

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.
