Vacancy

CLP Power Hong Kong Limited
Information Technology Group /
IT Business Enablement /
Assets and Operations Services
Senior Analyst - Assets and Operations Services
[Ref. CLPP-ITG-ITBEAOS-AMI-SA-AOS]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

CLP has embarked on a journey to becoming a "Utility of the Future" which is customer-centric, agile and digitally-enabled. The company is launching strategic transformation initiatives across the business in which next generation technologies will play a pivotal role.

We are looking for a passionate IT professional to join the IT Business Enablement within the Information Technology Group of CLP Power Hong Kong Limited. The successful applicant will be responsible for the following duties.

Key Responsibilities

- Conduct user requirement studies (liaising with IT Business Partnering team), system analysis and design, contract negotiation with IT vendor(s) etc.

- Collaborate with vendors and service providers for solution planning, service delivery and technical support activities

- Lead small-to-medium sized IT projects and guide junior IT staff (analysts, associates) on project delivery *(if necessary)*

- Manage implementation of IT systems which are crucial to CLP's business operations incl. systems related to Generation and Power Systems. These application systems include, but not limited to: -

  - Advanced Metering Infrastructure
- Participate in system development/deployment, testing, training, system cutover/rollout, documentation, maintenance and support

Requirements

- Bachelor's degree in Information Technology, Computer Science, or related disciplines is a must. Master's degree in a related discipline is desirable

- At least 6-8 years of experience in providing IT services

- Experience or knowledge in programming language:
  - Python, JavaScript, Ruby, SQL, PHP, Java, Bash and Scala

- Hands-on experience or knowledge in:
  - Provision and configuration management tools -- Chef, Puppet, Ansible and terraform
  - Cloud Computing platforms such as Microsoft Azure Cloud, Alibaba Cloud, containerisation, virtualisation and other cloud services.
  - Agile software development methodology, Scrum and DevOps knowledge

- Professional credentials in ITIL, PMP, COBIT, ScrumMaster, DevOps, or relevant disciplines preferred

- Proven track record of problem solving and analytical abilities

- Strong communication skills, leadership skills and teamwork

- Demonstrable commitment to continuous learning

- Proactive, performance driven and results oriented

- Good spoken and written English

Please apply by sending email to chr@clp.com.hk giving a detailed C.V. including current and expected salary, career history, major achievements and personal attributes on or before **4 June 2022.**
