

# Vacancy

**CLP Power Hong Kong Limited  
Information Technology Group /  
Cloud Program & Infrastructure Transformation /  
IT Infrastructure  
Network & Security Manager  
[Ref. CLPP-ITG-CPIT-ITN-NSM]**

*CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.*

*CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.*

*CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.*

CLP has embarked on a journey to becoming a "Utility of the Future" which is customer-centric, agile and digitally-enabled. The company is launching strategic transformation initiatives across the business in which next generation technologies will play a pivotal role.

We are looking for a passionate IT professional to join the Cloud Program & Infrastructure Transformation within the Information Technology Group of CLP Power Hong Kong Limited. The successful applicant will be responsible for the following duties:

## **Key Responsibilities:**

- Assist Infrastructure Manager to formulate the network and security strategy and architecture design
- Manage the enterprise network and security infrastructure, including multi-cloud networking, data centre network, campus network, WiFi network, regional MPLS network, IT/OT network integration, Internet infrastructure platform, network access control and security platforms, and Video Conference infrastructure
- Lead a team of engineers and managed services vendors to provide high quality implementation services of network related projects and round the clock support to support business applications
- Provide network support to other CLP regional offices, mainly in China, India and Australia
- Responsible for technical design, implementation plans, support documents and review of network changes
- Drive process improvement in network security strengthening, process automation and proactive monitoring

- Lead the team on latest technology, process adoption and automation e.g. DevOps, Infrastructure-as-Code
- Liaise with internal and external stakeholders
- Regional business travel may be required

#### Requirements:

- A recognised university degree in Computer Science, Information Technology, Management Information Systems or equivalent
- At least 10 years of related experience in enterprise infrastructure network and security environments on cloud and data center networks including architecture design, project planning, implementation, documentation, and administration, in which at least 3 years of team management experience
- Extensive experience in WAN, LAN, Data Centre, multi-cloud and SaaS networking, Wi-Fi, firewall, network access control, global load balancing, application delivery controller, content distribution networks, virtualization, video conferencing platform, etc.
- Familiar with products of Cisco, Checkpoint, Palo-Alto, FireEye, Zscaler, Azure, AWS, Alibaba Cloud, Cloudflare, Equinix, Megaport, Infoblox, etc.
- Lead implementation and monitoring for enterprise network and security with latest technology to support mission critical applications in 24x7 production environment
- Professional credentials in ITIL, PMP, CISSP, cloud certificate or relevant disciplines will be an advantage
- Ability to cope in a technically complex and fast-changing environment, and to respond calmly and rationally to changing aspirations in a deadline-driven situation
- Strong planning and organizing skills including the ability to manage several work streams simultaneously
- Proven track record of problem solving and analytical abilities and able to use own initiative
- Excellent communication and presentation skills, as well as influencing and leadership skills
- Good team player, vendor management, project management, change management and stakeholder management
- Fluent in Chinese and English

Please apply by sending email to [chr@clp.com.hk](mailto:chr@clp.com.hk) giving a detailed C.V. including current and expected salary, career history, major achievements and personal attributes on or before **20 October 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted.
