

Vacancy

CLP Power Hong Kong Limited

CLPPHK ERP Review Team

Senior Solution Architect (Functional / Infrastructure) (2-Year Contract)

[Ref. CLPPHK-ERP-SSA]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for passionate Solution Architects to join the ERP Project Team of CLP Power Hong Kong Limited. The successful applicant will be responsible for the following duties:

Key Responsibilities:

- Coordinate enterprise wide requirements to develop and maintain the solution architecture
- Envision a transformation roadmap that aligns with the business strategic objectives
- Define solution vision and direction building on commonalities and benefits across lines of business and technologies
- Take a holistic view to perform impact assessment against solution options across the functional areas and application landscape with a particular emphasis on SAP's and Oracle's ERP solutions leveraging existing roadmaps, design principles and patterns
- Advise on integration patterns, including dispensations for varying from pattern; continue to improve and refine design principles and patterns
- **<If applied for the Functional role>** Lead application solution architecture design and guide project resources in formulating all areas of solution design specification including process flow and data residency.
- **<If applied for the Infrastructure role>** Lead the technical and non-functional aspects of architecture design and guide project resources in formulating all areas of technical design specification including technical sizing, cyber security and networking.

Requirements:

- A recognised university degree in, Information Technology, Computer Science, or related disciplines; Postgraduate degree in Business Administration or related field is desirable
- Relevant experience as an Architect of at least 10 years
- Professional credentials in TOGAF, DevOps, or relevant disciplines preferred
- Extensive experience with Solution Design, ideally across multiple technologies and complex environments
- Involvement in an architectural capacity in a recent ERP project implementation
- Experience in selecting SAP or Oracle ERP solutions and functional modules desirables
- Knowledge of cloud vendors and ERP vendor technologies highly valued
- Strong written and verbal communication skills in English essential; and, Cantonese & Mandarin Chinese language abilities highly regarded, as well as influencing and leadership skills
- Proactive, performance driven and results oriented

Please apply by sending email to chr@clp.com.hk giving a detailed C.V., including academic qualifications, career history, major achievements and personal attributes on or before **3 August 2021**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
