

Vacancy

CLP Power Hong Kong Limited
Generation Business Group
Business Strategy-Generation
Engineer I (Grade: MP4)
[Ref: CLPP-GBG-BSD-EI]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for energetic and professional engineer to join our Business Strategy Department, Generation Business Group. Successful candidate will be assigned to work for one of the Branches, i.e. Business Improvement, Investment Strategy and Operation & Maintenance Strategy, to assist in the development and implementation of GBG's full span of business strategies/activities including business planning & performance management, cyber security, Information Technology (IT) & Operational Technology (OT) system development & management, risk management, investment planning and operation & maintenance optimization in order to meet the business objectives in terms of specific deliverables, performance targets, operational excellence and cost effectiveness. In addition, he/she will be part of the team to develop strategies, tools and systems enabling GBG to become more competitive in the energy market.

Requirements:

- A recognized university degree or equivalent in engineering or IT disciplines, plus a minimum of 5 years' relevant working experience.
- Good knowledge with work experience on process control and OT systems, such as Distributed Control System (DCS), Process Data Network (PDN), and the related cyber security and vulnerability management is preferred.
- Strong analytical, interpersonal, negotiation and project management skills.
- Good numerical & modelling skills and ability to conceptualize, design and carry out strategic analysis and effectively communicate recommendations to stakeholders.
- Good communication skills, including both spoken and written English and Chinese.
- Active team player with good time and stress management.

Please apply by sending email to hrgbg@clp.com.hk giving a detailed C.V., including career history, major achievements and personal attributes on or before **6 August 2021**.

Important: To facilitate our easy tracking please use a unique file name for all attachments and your email subject box in this format: GBG_BSD_EI_LastName_First Name_Other Names.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
