

Vacancy

CLP Power Hong Kong Limited
Generation Business Group
Castle Peak Power Station / Operations
Shift Engineer IIIs (2-year's contract)
[Ref.: CLPP-GBG-CPPS-O-SEIII]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

Applications are invited for the above position in the Castle Peak Power Station. Reporting to the Shift Engineer I, the successful candidates will assist in the generation operation and front-line repair and maintenance of the power plant equipment in the Station to ensure that the electricity production processes are operated in a safe, reliable and efficient manner. Major duties include:-

- Assist in power plant operation, start-up / shut down of the generating units, and emergency repair / maintenance of plant equipment according to the established station procedures, company safety rules, policies and standards.
- Assist in providing technical, engineering and operation support to the shift operation team and/or fuel & material handling team.
- Liaise with the parties concerned to facilitate unit generation, maintenance work, circuit switching and other activities to optimize output.
- Coordinate unit /station/ fuel & materials handling system maintenance activities, carry out electrical and mechanical isolation and issue safety documents.
- Perform any other duties, such as Fire Fighter, First Aider and Breathing Apparatus User, etc assigned by supervisor as and when required.
- Work on 3-shift basis (Day, Evening & Night Shift) and other assignments subject to operational needs

Requirements:

- A recognized university degree or equivalent in an engineering discipline, plus at least 1 year's relevant working experience; or higher diploma / certificate plus 3 years' relevant working experience.
- Able to communicate effectively in both spoken and written English and Chinese.
- A good team player, self-initiative with strong analytical skills.

- Good awareness of industrial safety, health and environment policies and standards.

Please apply by sending email to hrgbg@clp.com.hk giving a detailed C.V., including career history, major achievements and personal attributes on or before **3 August 2021**.

Important: To facilitate our easy tracking please use a unique file name for all attachments and your email subject box in this format: CLPP_GBG_CPPS_O_SEIIIs_LastName_First Name_Other Names.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications.
