

Vacancy

CLP Power Hong Kong Limited
Generation Business Group
Generation Engineering Department
Safety & Continuous Improvement Branch
Senior Engineer – Safety
[Ref.: CLPP-GBG-GED-SE-Safety]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for a high calibre professional to join the Generation Engineering Department of Generation Business Group. Reporting to the Acting Engineering Manager – Safety & Continuous Improvement, the appointee will be responsible for planning, developing, reviewing and implementing safety systems, policies and procedures to improve and sustain the safety performance of Generation Engineering Department. The successful candidate will be responsible for the following duties: -

- Develop and implement safety policies and procedures to ensure full compliance with the latest legislations and the Company's safety & health requirements.
- Monitor implementation effectiveness of safety plan and environmental management plan.
- Investigate safety related incidents to identify the root causes, make appropriate improvement recommendations and monitor implementation of the mitigating measures.
- Analyse incident statistics, provide feedback on trends and formulate mitigation measures.
- Organize and promote safety and health programs, workplace safety hazards and advise/implement control measures on incident prevention.
- Conduct safety audit and support external safety accreditation audit; formulate corrective and preventive actions as appropriate.
- Advise on strategic development plan for continual improvement of staff competencies in safety.
- Provide expert advice to management on various operations or activities in the Department.
- Provide professional advice to field teams to reduce risk level on work execution.

- Facilitate the effective implementation of key functional activities (e.g. occupational safety audit, incident investigation, safety training, contractor management, etc.).

Requirements:

- A recognized university degree or equivalent in an engineering, science or safety related discipline plus a minimum of 5 years' relevant working experience;
- Possession of a valid professional qualification obtained from one of the recognized professional bodies;
- Possession of Registered Safety Officer (RSO) qualification with experience in handling subcontractors;
- Analytical and able to work under pressure and tight schedule;
- Good knowledge of legislative requirement, world-wide Code of Practice on Safety, Health and Environment issues and CLP Power Safety Rules;
- Excellent inter-personal and communication skills.

Please apply by sending email to hrgbg@clp.com.hk giving a detailed C.V., including academic qualifications, career history, major achievements and personal attributes on or before **12 August 2022**.
