# Vacancy

**CLP Power Hong Kong Limited**

**Generation Business Group**

**Generation Engineering Department / Safety & Continuous Improvement Branch**

**Engineer II - Safety (10-Month Contract)**

**[Ref: CLPP-GBG-GED-S&CI-EII-S]**

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

We are looking for energetic professional to join the Generation Engineering Department of our Generation Business Group. Reporting to the Engineer I - Safety, the appointee will be responsible for the following duties:

- Implement Safety, Health, Environment and Quality (SHEQ) programme according to the business needs and ensure its full compliance with the latest legislations and the company's SHEQ requirements.
- Plan, coordinate and conduct comprehensive SHE trainings to line staff, contractors, and management.
- Perform site and office safety inspections and audits regularly to ensure all staff and contractors comply with the statutory regulations and company's safety standards and requirements.
- Investigate incidents, near-misses and make recommendations.
- Conduct risk assessment, ergonomic survey and implement cost-effective corrective action to prevent and/or control the foreseeable hazards in particular to identify any potential SIF (Serious Injuries and Fatalities) areas.
- Monitor contractors' safety performances with effective safe systems of work and give advices to SHE Plans of Projects.
- Provide up-to-date safety, health, and environment information, as well as safety advice and technical supports to line staff and management.
- Liaise with relevant parties on SHE matters.

### Requirements:

- A recognized university degree in engineering or occupational health & safety discipline or equivalent.
- Minimum of 3 years' relevant safety experience, preferably gained in construction industry.
- Possession of a Construction Industry Safety Training Certificate.
- Registered as a Safety Officer under Labour Department.
- Mindful and possess good safety awareness.
- Familiar with ISO 14001 & ISO 45001 preferred.
- Excellent interpersonal and communication skills.
- Fluent in both spoken / written English and Chinese.
- Self-motivated, creative, and able to work under pressure.
- Knowledge of CLP Power safety policies, standards, and requirements is an advantage.

Please apply by sending email to [hrgbg@clp.com.hk](mailto:hrgbg@clp.com.hk) giving a detailed C.V., including academic qualifications, career history, major achievements and personal attributes on or before **21 January 2022**.

To facilitate our easy tracking, please use a unique file name for all attachments and your email subject box in this format: **CLPP\_GBG\_GED\_S&CI\_EII-S\_LastName\_First Name\_Other Names**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <https://clp.to/engPICS>
