

Vacancy

CLP Power Hong Kong Limited
Power Systems Business Group
Transmission Department / Project Management Branch
Senior Engineer - Project Controls (2-Year Contract)
[Ref.: CLPP-PSBG-TD-PM-SE-PC]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for an energetic and self-driven professional to join Transmission Department in handling one of the mega projects – the Clean Energy Transmission System (CETS), for enhancing the cross - border transmission overhead line circuits connecting Hong Kong and Mainland China. Reporting directly to Manager – Project Controls, the successful candidate will be responsible for project controls functions and is expected to work with project team and liaise with Engineering, Procurement & Construction (EPC) contractors for project planning and programming, cost monitoring, progress reporting, and risks control.

Major responsibilities:

- Work with Group Operations to ensure the project is delivered in compliance with CLP Project Management Governance System
- Maintain and report realistic schedule and construction budget forecasts
- Mitigate any potential threats for cost or schedule overruns and projects risks by proactively working with the EPC contractors and other relevant stakeholders to identify and generate recovery plans
- Ensure the EPC contractors' planning, scheduling and changes are well managed and justified
- Travel to PRC for meetings and monitoring EPC contractors' project progress at site
- Perform any other duties as assigned by supervisor

Requirements:

- A recognized University degree in an engineering discipline
- Minimum 5 years of relevant experience in power, construction, or process industry
- MHKIE or Chartered Engineer qualification or equivalent is preferable
- Knowledge of business planning, budgeting and contracting process
- Ability to communicate effectively with different levels, both internally and externally
- Proficient in both written and spoken English and Chinese, including Putonghua

Please apply by completing an [online application form](#) and emailing your Resume to hrps@clp.com.hk under email subject: **TD-PM-SE-PC_Last Name_First Name_Other Names** on or before **16 August 2022**.

Only shortlisted candidates will be contacted and applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <https://clp.to/engPICS>
