

Vacancy

CLP Power Hong Kong Limited
Power Systems Business Group
Transmission Department / Civil Branch
Engineer (2-Year Contract)
[Ref.: CLPP-PSBG-TD-Civil-SF-E]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for a high calibre engineering professional to join Substation & Facilities Section of Civil Branch in Transmission Department. Reporting to Senior Engineer, the appointee will be responsible for following duties:

- Supervise the maintenance and repair of substations including the building structure, building facilities, auxiliary equipment, building services, fire protection system and slope
- Manage improvement projects and building maintenance contracts including tender evaluation, budget planning & control and project management
- Issue and sign the Certificate of Maintenance (FS251) for certifying the completion of maintenance on fire protection systems in accordance with government legislations
- Assist in:
 - preparing feasibility study, budget, design, and engineering of transmission improvement / renovation projects in accordance with statutory, safety, technical, cost, quality, and customer requirements
 - managing contractor activities, negotiation and attending site meetings with various stakeholders for different infrastructure and external projects
 - carrying out pre-commissioning checks and commissioning tests on substation equipment
- Carry out fault / defect investigation, diagnosis, analysis, and repairs
- Implement control procedures and practices on project management, operations, and contractor performance in accordance with the Company's Health, Safety, Security, Environment and Quality (HSSEQ) management systems
- Arrange training for Technical Professional/Technical Operations staff
- Perform duty under adverse weather conditions, and standby or emergency call-out duty outside normal office hours and / or shift work if and when required

Requirements:

- A recognized University degree in relevant Engineering discipline
- At least 3 years' relevant experience in the Power industry with preference to those with experience in project management, operations, and maintenance activities of substations or relevant industrial premises
- Possession of following qualifications would be an advantage:
 - Certificate of Registration of Electrical Worker (REW)
 - Registered Class III Fire Service Installation (FSI) Contractors
 - Grade I Plumber's License
- A valid Driving License class 1/1a and 2/2a
- Familiarity with CLP Power Safety Rules, engineering standards and codes of practice is preferable
- Good safety awareness and mindset
- Ability to work independently and meet tight deadline
- Good interpersonal skills and ability to communicate effectively in English and Chinese
- Customer-oriented, self-motivated, and a team player

Candidate with less qualification and/or experience but demonstrates good potential for further development will be considered for a position at lower grade.

Please apply by completing an [online application form](#) and emailing your Resume to hrps@clp.com.hk under email subject: **TD-Civil-SF-E_Last Name_First Name_Other Names** on or before **19 August 2022**.

Only shortlisted candidates will be contacted and applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <https://clp.to/engPICS>
