

# Vacancy

**CLP Power Hong Kong Limited**  
**Power Systems Business Group**  
**Transmission Department / Planning & Resources Branch**  
**Engineer II (2-Year Contract)**  
**[Ref.: CLPP-PSBG-TD-P&RB-C&OP-EII]**

*CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.*

*CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.*

*CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.*

We are looking for several high calibre engineering professionals to join the Commissioning & Outage Planning Section of Planning & Resources Branch in Transmission Department. Reporting to an Engineer I, the appointees will be responsible for the following duties:

- Carry out pre-commissioning checks and commissioning tests on equipment up to 400kV where specialist skills are required
- Manage commissioning apparatus and act as independent checker of commissioned circuits / plant equipment handover amongst departments/ branches
- Assist in providing technical advices on design and engineering of transmission plant and auxiliary equipment
- Carry out site supervision to ensure compliance with CLP Power Safety Rules, Company specifications, practices, and procedures, and to meet the work programmes
- Monitor site safety, work quality and work progress of Company's work teams and/or contractors
- Ensure that safety standards and good housekeeping practices are maintained at all times
- Perform standby duty after normal office hours, during adverse weather condition and typhoon period, and carry out driving duty, emergency repairs / shift works as and when required
- Liaise with suppliers / contractors in contract administration, vetting variation, site work measurement, conducting payment acceptance, negotiating, and resolving claims and disputes
- Monitor the site safety, work quality and work progress of Company's work teams and/or contractors

## Requirements:

- A recognized University degree in Electrical Engineering or equivalent
- At least 3 years' relevant experience in commissioning of transmission projects
- Being Authorised Person (AP) / Senior Authorised Person (SAP) would be an advantage
- Familiarity with CLP Power Safety Rules, engineering standards and codes of practice is preferable
- Good safety awareness and mindset

- Ability to work independently and meet tight deadline
- Good interpersonal skills and ability to communicate effectively in English and Chinese; fluency in Putonghua would be an advantage
- Customer-oriented, self-motivated, and a team player
- A valid Driving License class 1, 2 would be an advantage

Candidates with less qualification and/or experience but demonstrate good potential for further development will be considered for a position at lower grade.

Please apply by sending email to [hrps@clp.com.hk](mailto:hrps@clp.com.hk) giving a detailed C.V., including career history, major achievements and personal attributes, present and expected salary on or before **18 January 2022**.
