

Vacancy

CLP Power Hong Kong Limited

Power Systems Business Group

Technical Services Department / Telecommunications Branch

Technical Officer II (2-Year Contract)

[Ref: CLPP-PSBG-TSD-TB-TOII]

Founded in 1901 as China Light and Power Company Limited in Hong Kong, CLP Group has grown from a Hong Kong-based power utility into a leading investor and operator in the Asia Pacific Region's electricity market. Its portfolio comprises over 60 generation assets of gas, coal, nuclear and renewable energy, distribution and transmission assets and retail operations. The CLP Group is owned by CLP Holdings, a company listed on the Stock Exchange of Hong Kong.

We are looking for a high calibre technical professional to join the Telecommunications Branch of Technical Services Department. Reporting to an Engineer, the appointee will be responsible for the following duties:

- Perform network operation and maintenance works to achieve the KPI target of Smart Metering Platform
- Support team leader for end to end testing and measurement for Smart Metering Platform and related telecommunication networks
- Deploy and restore telecommunications services upon user requests, equipment fault and system upgrade and migration
- Plan and schedule routine maintenance of aforementioned telecommunications systems and the auxiliary systems and facilities
- Perform project works, system fault diagnosis, and investigation at the field, power substations and hill-top stations and in some cases with the support from contractors
- Provide training, supervise site work, and conduct audit check to ensure work done by team members and contractors comply with approved working procedures, safety requirements, related specifications, proper risk mitigation measures, appropriate quality and housekeeping standards and legal requirements
- Liaise and coordinate with internal and external stakeholders (e.g., customers) to ensure site activities (including planned outages) meet performance targets
- Conduct timely inputting of data in Company IT systems such as EWMS, EFMS, EPSS, IDMS, PSARS and other Document Workflow Control System (DWCS) as and when required
- Perform emergency call-out work and work under adverse weather condition as and when required.

Requirements:

- Higher Certificate / Higher Diploma in Electronic, Electrical, Computer Engineering or Professional Diploma in Power Engineering or equivalent plus 2 years' relevant experience; OR
- Ordinary Certificate / Ordinary Diploma in Electronic, Electrical, Computer Engineering or Diploma in Power Engineering or equivalent plus 4 years' relevant experience
- Authorized Person – Restricted Duties and Safety Supervisor qualification or equivalent would be preferable
- Construction Industry Safety Training Certificate
- A valid driving license class 1,2

- Good understanding of CLP Power Safety Rules and relevant statutory requirements, SHEQ requirements, codes of practice and relevant procedures
- Experience and knowledge in telecom network implementation, e.g. Smart Metering Platform, fibre optic, transmission & multiplexing, microwave, LAN/WAN, PABX, TETRA and other radio networks
- Proficiency in use of PC applications
- Positive safety attitude and good understanding in of relevant statutory safety, health, environmental and quality requirements, engineering standards, code of practices and procedures
- Ability to work independently and to communicate technical concepts in English and Chinese (including Mandarin), both verbal and written
- Good supervisory skill and good problem solving & influencing skills
- Customer and result-oriented, self-motivated, good team player and able to work under pressure

Please apply by sending email to hrps@clp.com.hk giving a detailed C.V., including career history, major achievements, personal attributes, present and expected salary on or before **19 January 2021**.
