

Vacancy

CLP Power Hong Kong Limited
Power Systems Business Group
Technical Services Department / Metering Branch
Engineer I (2-Year Contract)
[Ref: CLPP-PSBG-TSD-MB-EI]

Founded in 1901 as China Light and Power Company Limited in Hong Kong, CLP Group has grown from a Hong Kong-based power utility into a leading investor and operator in the Asia Pacific Region's electricity market. Its portfolio comprises over 60 generation assets of gas, coal, nuclear and renewable energy, distribution and transmission assets and retail operations. The CLP Group is owned by CLP Holdings, a company listed on the Stock Exchange of Hong Kong.

Applications are invited for the above vacancy in Metering Branch of Technical Services Department. Reporting to the Senior Metering Manager, the appointee is required to:

- Assist in formulation of medium and long-term metering strategies to cope with present and future competitive market environment
- Develop and regularly review technical specifications, guidelines and policies for all associated metering assets and systems according to industry practice, regulation and CLP policy
- Research and evaluate new metering equipment / technologies through implementation of pilot projects before making recommendations for applications in CLP
- Procure metering equipment and develop metering solutions to meet customer, regulatory and company requirements that align with the long-term metering and tariff strategies for various classes of customers.
- Monitor and analyze technical and commercial performance of various metering assets / systems and initiate improvements to meet changes in the business environment
- Lead a team of engineering staff to deliver meter testing services in compliance with the quality standards, such as ISO 9000, Six Sigma, etc.
- Conduct fault investigation on component, equipment and system with different diagnostic tools / tests

Requirements:

- A recognized university degree in Electronic Engineering, Electrical Engineering or relevant discipline
- Minimum 5 years' relevant experience in meter data management including translation of business and operational requirements into functional specifications. Experience in design, installation and commissioning of metering systems for large customers is a strong advantage.
- Extensive knowledge of quality systems, metering and data management operations, as well as telecommunication technology
- Be mindful and has good safety awareness and track record in managing large workforce
- Business minded, performance driven, result oriented, cost conscious and innovative
- Excellent and proven interpersonal, negotiation, managerial and leadership skills

Please apply by sending email to hrps@clp.com.hk giving a detailed C.V., outlining qualifications, education, work experience, safety contributions / achievements and personal attributes on or before **5 March 2021**. To facilitate our easy tracking please use a unique file name for all attachments and your email subject box in this format: **TSD_MB_EI_Last Name_First Name_Other Names**

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted.
