

For Internal and External Applications

Vacancy

CLP Power Hong Kong Limited

Power Systems Business Group

System Operation Department / Operational Planning Branch

Engineer I (2-Year Contract)

[Ref.: CLPP-PSBG-SO-OP-EI]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

We are looking for high caliber professional to join Operational Planning Branch of System Operation Department. Reporting to a senior engineer, the appointee will assist in the following duties:

- Perform short and medium-term transmission and distribution outage planning activities to ensure the security standards of the system are met
- Coordinate generation and interconnection outage activities to optimise the utilisation of the Company's generation resources
- Perform short and medium-term demand forecast, variable renewable energy forecast and determine commitment of generation units economically while satisfying the system and interconnection requirements
- Analyse the causes of faults or disturbances on generation and transmission systems and recommend remedial measures to meet the system security
- Monitor generation, transmission and interconnected systems performance, capture operational and fault statistics, analyse operational data, consolidate into useful operational information, and disseminate to relevant departments
- Formulate operational plans to improve the operational efficiency and minimise potential supply interruption to customers

Requirements:

- A recognized University degree in Electrical Engineering or equivalent
- MHKIE or equivalent is preferable
- At least 5 years' relevant experience in electricity supply industry
- Being Authorised Person (AP) / Senior Authorised Person (SAP) would be an advantage

- Familiar with CLP Power Safety Rules, and HSSE Management Systems, engineering standards and codes of practice is preferable
- Customer-oriented, achievement driven, self-motivated, analytical and able to work under pressure
- Knowledge in computer programming, and/or data analytics tools
- Ability to communicate effectively with different levels, both internally and externally
- Mindful and with good safety awareness

Please apply by sending email to hrps@clp.com.hk giving a detailed C.V., including current and expected salary, career history, major achievements and personal attributes on or before **26 November 2021**. To facilitate our easy tracking please use a unique file name for all attachments and your email subject box in this format: **SO_OP_EI_Last Name_First Name_Other Names**

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <http://clp.to/engPICS>
