

Vacancy

CLP Power Hong Kong Limited

Power Systems Business Group

Technical Services Department / Protection Engineering Branch

Engineer II (2-Year Contract)

[Ref: CLPP-PSBG-TSD-PE-EII]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

CLP is an Equal Opportunity Employer and is committed to providing a working environment free from discrimination or harassment. All applicants will be considered for employment on an equal basis regardless of gender, physical or mental state, race, nationality, religion, age, family status or sexual orientation.

CLP is also a certified Fair Wage Employer in recognition of the Company's exemplary wage policies and practices.

Applications are invited for the above vacancies in Technical Services Department. Reporting to a senior engineer, the successful candidates will be responsible for carrying out evaluation, application, fault investigation, testing and installation activities in the areas of protection and relay issues in power systems.

- Plan, organize and carry out effective and timely protection activities, including relay evaluation, project comment, system improvement projects, maintenance policy review, installation, testing, commissioning and fault investigation
- Prepare and review safety, work, quality and other documents to ensure compliance with policies and procedures
- Identify correct work methods, review and analyze the results and make recommendations in working procedures and activities related to protection and relays for generation, transmission and distribution systems
- Assist senior engineers in various business activities including financial management, procurement and training
- Compile reports / statistics and carry out feasibility studies to improve work performance and productivity
- Perform standby duties, emergency call-out, and typhoon standby duties outside office hours as required

Requirements:

- A recognized university degree in electrical engineering, electronics engineering or equivalent
- At least 3 years' experience in the installation, testing, fault investigation and/or modification of protection equipment or associated systems
- Proficiency in use of PC applications, preferably with experience in computer programming
- Familiarity with CLP Power Safety Rules, relevant engineering standards and codes of practice
- Be mindful and has good safety awareness
- Proven interpersonal and team-building skills

- Ability to work independently and communicate technical concepts in English and Cantonese, verbal and written
- Possession of a valid Driving License would be preferable

Candidates with less qualification and/or experience but demonstrate good potential for further development will be considered for a position at lower grade.

Please apply by sending email to hrps@clp.com.hk giving a detailed C.V., including academic qualification, career history, current and expected salary, major achievements and personal attributes, on or before **18 January 2022**. To facilitate our easy tracking, please use a unique file name for all attachments and your email subject box in this format: **TSD_PE_EII_Last Name_First Name_Other Names**.

Applicants not invited for interview within 6 weeks from the closing date may assume their applications unsuccessful.

Information provided will be for recruitment purpose within the CLP Group and only short-listed candidates will be contacted. We comply with all applicable laws and regulations of HKSAR in handling applications. For details of the Personal Information Collection Statement, please visit our website: <http://clp.to/engPICS>.
