

Vacancy

CLP Power Hong Kong Limited
Power Systems Business Group
East & West Region
Customer Supplies & Services Branch
Technical Officer II (2-Year Contract)
[Ref. CLPP-PSBG-WER-CSSB-TOII]

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

Reporting to Engineer I of Customer Supplies and Services Branch, the appointee will be responsible for duties which include but are not limited to the following:

Major Duties:

- Conduct or supervise several teams of Technicians/Senior Technicians including direct staff and contractors to conduct quality inspection on project and maintenance activities to ensure compliance with relevant specifications, procedures and standards
- Process Electricity Supply, Change of Load, Feed-in Tariff (FiT) applications and Renewable Energy projects, review technical documents and conduct network
- Diagnose simple problems and faults, identify and formulate preventive and corrective actions using a variety of instruments and methods and make recommendations on quality improvement
- Monitor performance and progress of assigned work teams to ensure that work plans are completed according to schedule and in compliance with SHEQ standards
- Ensure smooth work by coordinating access, schedules, isolation, etc. with relevant internal and external parties
- Perform site measurements and prepare records. Conduct timely input of data in company IT systems, such as CCMS, EWMS, EFMS, handheld system, ESPS, SPS, AM/FM, DMS, TCOM
- Conduct quality inspections, pre-commissioning checks and commissioning tests
- Liaise and coordinate with internal and external stakeholders (e.g. customers) to ensure site activities (including planned outage) meet performance targets
- Perform emergency call out / repair work, and/or work under adverse weather condition as and when required
- Carry out other duties including participating in safety promotion activities, driving, record updating, report writing and any other duties assigned by supervisors

Requirements:

- Higher Certificate / Higher Diploma in Electrical Engineering or Professional Diploma in Power Engineering or equivalent plus 2 years' relevant experience, OR Ordinary Certificate / Ordinary Diploma in Electrical Engineering or Diploma in Power Engineering or equivalent plus 4 years' relevant experience
- Registered Electrical Worker (REW) at Grade A or above. For CLP staff, Authorised Person – Restricted Duties in LV is required
- Holder of a valid driving licence class 1 and 2. For CLP staff, Company Authorized Driver is required
- Safety Supervisor or equivalent preferred
- Certified Installation Inspector Certificate is an advantage
- Good understanding of Electrical Ordinance, relevant statutory requirements, HSSEQ requirements, code of practices, relevant procedures and manual handling standards/techniques. For CLP staff, good understanding of CLPP Safety Rules and Safe Systems of Work is required
- Demonstration of safety awareness, teamwork, and customer orientation
- Good understanding of simplified electrical installation / control wiring / plant / substation drawings
- Good knowledge of customers' installations, protection equipment, alarms and trip indicators
- Ability to work independently and to communicate technical concepts in English and Chinese (including Putonghua), both verbal and written
- Customer oriented with good supervisory, problem solving & influencing skills
- Good knowledge of functionalities of company IT systems, e.g. CCMS, EWMS, EFMS, ESPS, SPS, AM/FM, TCOM etc
- Ability to perform basic functionalities of smart / mobile technology, e.g. handheld devices
- Ability to use PC applications, e.g. MS Outlook, Word, Excel
