

Welcome to CLP's 2017 Annual Report.
 Since we started our integrated reporting journey in 2011, our annual report has been the primary channel for us to provide a connected view of our strategy and performance with respect to major financial, economic, environmental, social and governance developments to our stakeholders. This year, we continue this approach, but with a sharper focus on the future.

As we present our 2017 Annual Report to you, the cover shows how we look out to the future through a lens, or a boiler tube, with intrigue. What we see are brighter tomorrows powered by cleaner energy. This is not only the theme of the Annual Report, but also what we aim to bring to the communities we serve.

Our 2017 Annual Report is structured around the reporting guidelines developed by the International Integrated Reporting Council. It also serves as a compliance report for the purposes of applicable statutory and regulatory (Hong Kong Listing Rules) requirements and accounting standards. In addition, our online [Sustainability Report](#), which has been prepared according to GRI Standards, provides a comprehensive review of CLP's sustainability goals, efforts and performance. More information can also be found on our [website](#).
