

THANK YOU

Thank you for reading our Annual Report, which is one of our main channels to communicate with you and we would like to hear what you think. As a token of our appreciation, each stakeholder who sends us **feedback (through our online form or email to cosec@clp.com.hk) on any of our Annual Report (including our [online snapshot](#)) and [Sustainability Report](#)** on or before 30 June 2020 will receive four carbon credits, which can be used to offset your carbon footprint. For example, this amount of carbon credits is sufficient to offset emissions generated by:

- fuel used by an average mid-sized gasoline car in Hong Kong over 18 months; or
- electricity consumption of an average person in Hong Kong in nine months.

Send us your feedback and receive four carbon credits!

About CLP Carbon Credits

CLP Carbon Credits is a carbon credits e-commerce platform through which customers located anywhere in the world can calculate their carbon emissions, purchase carbon credits online from CLP's Smart Energy Connect and obtain an e-certificate in recognition of their move. These carbon credits represent the emissions avoided by generating electricity from CLP India's wind farms. The avoided emissions can be allocated to any individual or business through the purchase of a carbon credit and CLP completing a voluntary retirement of that credit on their behalf. Learn more at www.clpsec.com/clp-carbon-credits.
