CLP Clarifies an Erroneous Media Report

In response to a certain media report misquoting CLP's comments regarding the Daya Bay Nuclear Power Station, the company wishes to clarify that it has no immediate plan to invest in the expansion of the facility.

CLP is committed to ensuring the safest standards for Daya Bay's operations. In the wake of the incidents at the Fukushima Power Station in Japan, as well as the announcement of the China State Council's directives for comprehensive safety checks of the nation's existing nuclear power plants, CLP's top priority is on the continued close monitoring of the developments at Fukushima and enhancement of the robustness of Daya Bay's safety regime.

About CLP

CLP Power Hong Kong Limited (CLP Power) is the largest electric utility in Hong Kong serving the business and domestic community in Kowloon, the New Territories, Lantau and most of the outlying islands. Operating a vertically integrated electricity generation, transmission and distribution business, CLP Power provides a highly reliable supply of electricity and excellent customer services to over 5.7 million people in its supply area.

CLP Power is a subsidiary of CLP Holdings which also invests in energy businesses in Chinese mainland, Australia, India and Southeast Asia. It is the largest external investor in the Chinese mainland electricity industry, and a leading international private sector power company in the Asia Pacific region with a diversified portfolio of power generation from gas, coal, renewables and nuclear.
