FOR IMMEDIATE RELEASE

2 August, 2011

Hong Kong students compete for the top honour of CLP's Young Power Programme with creative sustainable living solutions

The CLP Young Power Programme 2011 Project Competition was successfully concluded today when 10 shortlisted teams from 7 secondary schools presented their success stories of promoting low carbon living to compete for the top honour of “Young Power Award”.

CLP Young Power Programme is a youth leadership development programme jointly organised by CLP and Junior Achievement Hong Kong (JA), offering students an opportunity to understand the power industry and how they can contribute to a better and sustainable future.

Building on this year's theme – “KISS” the World – Keep It Sustainable & Strong, the Programme had drawn enthusiastic response from schools and the best 10 teams were selected to go through a series of activity-based thematic learning in the past four weeks, which included student mentorship and leadership-training activities, developing their creativity, teamwork, leadership skills, and sense of social responsibility. At the end, the teams have to interpret what they have learnt into creative ideas to engage the community in sustainable living.

In today's finale of the CLP Young Power Programme 2011, they reported on their project achievements through display booths and presentations, competing for the grand awards:

The winning teams are:

- Young Power Award Champion: Tsuen Wan Government Secondary School - The Diamond
- Young Power Award First runner-up: Tsuen Wan Government Secondary School - The Ignition
- Young Power Award Second runner-up: St. Catharine's School for Girls, Kwun Tong - Green Infinity
- Best Booth in the Eyes of the Audience: Yuen Long Merchants Association Secondary School - Anti-carbon

Mr Richard Lancaster, Managing Director- CLP Power Hong Kong, remarked at today's event, “CLP Young Power Programme offers a unique experience for young leaders to understand, practice and promote a sustainable lifestyle. I hope they can continue to walk the talk and lead us towards a low carbon future.”

Ms Vivian Lau, Chief Executive Officer of Junior Achievement Hong Kong said, “The programme provides an integrated platform for our young people to cultivate a sense of social responsibility and to become successful leaders in a global economy. The student teams have demonstrated their aspiration in creating a sustainable community for people and the planet. The continued collaboration with CLP in these eight years is a testimony of the key asset of the world's future – our young people.”

Since 2009, CLP's Young Power Programme has extended its reach to Chinese Mainland and India to nurture more local young leaders in the areas where CLP operates. The Young Power Awards champion

teams from both locations will join the Hong Kong champion team at mid-August for a 10-day cultural and learning experience, during which they will be visiting CLP's Beijing Yire Power Station and Qian'an Wind Farm in Jilin province.

Tsuen Wan Government Secondary School - The Diamond snatched the top honor of CLP Young Power Award.

04

Yuen Long Merchants Association Secondary School - Anti-carbon impressed the audience by their creative models introducing the benefits of low carbon living and won the Best Booth in the Eyes of the Audience.

About CLP

CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange, is the holding company for the CLP Group, which is one of the largest investor-owned power businesses in Asia Pacific. Through CLP Power Hong Kong, it operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to 5.7 million people in Kowloon and the New Territories.

Outside Hong Kong, CLP holds a diversified portfolio of power generation investments that includes gas, coal, renewable and nuclear in the Chinese Mainland, Australia, India and Southeast Asia.

CLP is listed in the Global Dow – a 150-stock index of the world’s leading blue-chips, the Dow Jones Sustainability Asia Pacific Index (DJSI Asia Pacific), the Dow Jones Sustainability Asia Pacific 40 Index (DJSI Asia Pacific 40) and Hang Seng Corporate Sustainability Index Series.

About Junior Achievement Hong Kong (JA)

JA is a registered charitable organisation which is dedicated to inspiring and preparing young people to succeed in a global economy. In partnership with the business and education communities, JA encourages young people to participate in a range of activity-based education programmes, designed to help them understand the world of work and develop their work readiness, entrepreneurship, financial literacy and life-wide values essential for their future success.

Since its establishment in 2001, JA has engaged the support of over 10,000 business volunteers to serve over 140,000 students. The Junior Achievement worldwide network now serves over 10 million students a year in over 120 countries. Please visit www.jahk.org for more information.
