CLP Clinches Two Corporate Green Governance Awards

CLP Power Hong Kong Limited (CLP Power) received two Corporate Green Governance awards - *Corporate Green Governance Award – Grand Award* and *Corporate Green Governance Award – Stakeholders Engagement* at the Hong Kong Green Awards 2014 award presentation ceremony organised by the Hong Kong Green Council last Friday (12th December 2014). The awards recognised CLP's efforts in environmental protection and stakeholder communication.

Mr Paul Poon, Managing Director of CLP Power, was delighted that CLP's efforts to promote environmental protection are being recognised. He said, "Care for the environment has always been one of CLP's priorities. At CLP, we put a lot of emphasis on environmental protection. For example, we have taken a wide range of green measures such as the use of clean fuel for power generation, the building of sub-stations which include many environmental protection features, and the promotion of energy efficiency to our customers."

"We need to work together in order to make Hong Kong green. This is why we encourage stakeholders' participation. In addition to encouraging and supporting our customers to go green, we have also organised various activities within our organisation so that our employees can show their care for the environment both at work and in their daily lives," Mr Poon continued.

The Green Council's Corporate Green Governance Award recognises a company's efforts in driving and promoting green in the areas of leadership, mission, environmental monitoring and reporting, management system and stakeholder engagement.
