CLP Wins Top Awards for Nurturing Employee Talents

CLP Power Hong Kong Limited (CLP Power) has won three top awards in the Hong Kong Management Association (HKMA) Award for Excellence in Training and Development 2015 in recognition of its dedication to nurturing and encouraging talents for the Hong Kong power industry. The three awards were the special 25th Anniversary Award for Most Dedicated Organisation to People Development, the Excellence Award for Excellence in Training and Development (Development Category), and the Outstanding New Trainer Award.

CLP Power has a clearly-defined company policy towards people development and has introduced a variety of training and development programmes to enhance employees' professional proficiency and leadership potential. A Power Academy, a Generation Academy and an Energy Retailer Academy provide extensive training and enable employees to progress professionally while providing a safe and reliable electricity supply and excellent customer service to the Hong Kong community.

CLP Power Managing Director Mr Paul Poon said, "We are honoured to receive the awards, which reflect our tireless efforts towards people development. Uplifting the core values of caring for employees, we believe employees are our most valuable asset. We are committed to providing training and development programmes to let our staff flourish into talented individuals who can contribute to Hong Kong's long-term development by helping to provide a safe and reliable electricity supply."

CLP Power's signature training programme - the TIC Culture Change Programme – also won the Excellence Award for Excellence in Training and Development (Development Category). Through the programme, CLP Power aims to create an innovative and positive company culture and promote the importance of teamwork, encouraging greater cooperation and communication.

CLP Power employees are also recognised for their dedication to training. Training Engineer Ms Eliza Cheng Chi-wai received the Outstanding New Trainer Award for her work in people development. Ms Cheng works for the CLP Power Academy and is responsible for teaching technical and engineering staff about safety and environmental protection.

Ms Cheng said, “Safety is the top priority for the power industry. It is my responsibility to pass on knowledge about safety and environmental protection to colleagues. I find my job satisfying when I see our colleagues’ safety awareness is enhanced. CLP Power always encourages us to equip ourselves and continue our study to enhance our professional competence.”

The HKMA’s Award for Excellence in Training and Development, established for 25 years, is the most prestigious training and development award in Hong Kong. Award winners this year were chosen by a board of examiners comprising experienced human resources and training professionals. The 25th Anniversary Most Dedicated Organisation to People Development Award is a new title conferred to mark the awards’ quarter century anniversary.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited (“CLP Power”) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia.
