## **CLP Power Wins Platinum Title in 2015 Green Awards**

CLP Power Hong Kong Limited (“CLP Power”) has been given the highest Platinum title in the Environmental, Health and Safety Award (Corporate) of the Hong Kong Green Awards 2015. The award recognises CLP Power employees’ excellence in environmental, health and safety management, and for putting best practices to work in its daily operations. The judging panel was particularly impressed by CLP Power’s environmental performance in its operations, policies setting, management processes, training and promotion, as well as handling of information.

CLP Power Managing Director Mr Paul Poon, who received the accolade at a ceremony last night (3 December), said he was delighted with the honour which reflected the company’s awareness and the comprehensive health and safety policies it had put in place for both employees and contractors.

“Safety is always our number one priority at CLP Power,” Mr Poon said. “We have enforced stringent safety guidelines among staff and contractors to ensure safety in all work process and at all facilities. Thanks to the efforts of our employees and contractors, CLP Power’s accident rates are well below the average industrial level in Hong Kong.”

“We also promote a ‘SHE (Safe, Health, Environment) Family’ culture, encouraging employees, contractors and business partners to see themselves as family members so that everyone wholeheartedly and proactively pays attention to protecting the environment and ensuring a safe and health workplace for all,” added Mr Poon.

CLP Power also attaches great importance to the health of its employees. A series of health-related promotion and programmes such as health checks and talks are arranged in the Quality Work Life Programme.

With care for the environment as one of its core values, CLP Power is also dedicated to minimising possible environmental impact in its business operation. By implementing various emissions control measures, CLP Power achieved a 80% reduction in emissions produced during power generation in the last 20 years while electricity demand grew in the same magnitude in the same period.

Presented by the Green Council, the Environmental, Health and Safety Award of Hong Kong Green Awards is designed to recognise companies that perform exceptionally in terms of integrating environmental, health and safety management considerations and monitoring into their corporate policy and operations.

### **About CLP Power Hong Kong Limited**

CLP Power Hong Kong Limited ("CLP Power") is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer service to 5.9 million people in its supply area.
