CLP Power Voted Hong Kong's Most Attractive Employer Again

CLP Power Hong Kong Limited (CLP Power) has been voted the Most Attractive Employer out of 75 largest companies in Hong Kong at the Randstad Employer Brand Awards 2018, the second time since Randstad launched this award in Hong Kong in 2013. The award is a public survey conducted by international human resources services firm Randstad. The accolade is testimony to CLP Power's long-standing commitment to attract, nurture and develop talents for the Hong Kong power industry and to invest in human resources development.

Around 4,300 Hong Kong employees and job seekers between the ages of 18 and 65 were surveyed, and they were asked to vote for the company they most wanted to work for. Results showed that 77% of the respondents indicated they were familiar with CLP Power as an employer and 65% would like to work for the company. They also believed that CLP Power offers long-term job security, career development opportunities, and a good work-life balance. Furthermore, the respondents shared the views that CLP Power is a reputable company with good financials.

CLP Power Managing Director Mr TK Chiang said he was honoured that the company has been chosen as Hong Kong's Most Attractive Employer again. Mr TK Chiang said, "As one of the largest investor-owned power businesses in Asia, CLP Power employs more than 3,800 people in Hong Kong. We strive to create a positive and harmonious working environment for our employees so that they can perform at their best every day. In view of the rapid technological development and changes of our business environment, we are committed to nurturing creative thinking of our employees and helping our business keep pace with the times."

"Cares for people" is one of CLP's core values. The company cherishes employees as its most valuable assets and has developed a comprehensive and holistic staff development and wellness policy as part of a wholesome human resources strategy. Mr Chiang continued, "We take talent development seriously and we offer our employees good development opportunities. We will continue to help nurture professional talents for the power industry, so that we can provide the city with a safe and reliable supply of electricity at reasonable prices, making Hong Kong a greener and smarter city."

Launched in Belgium in 1999, the Randstad Employer Brand Awards has undertaken this research in 30 countries worldwide. Run by the international recruitment and

human resources service provider Randstad, it recognises the most attractive employers in each market.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited ("CLP Power") is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia.
