CLP Power Signs Three-runway System Power Supply Collaboration with Airport Authority Hong Kong

To support the development of Hong Kong International Airport, CLP Power Hong Kong Limited (CLP Power) collaborates with the Airport Authority Hong Kong (AA) to provide power supply for the Three-runway System.

The Power Supply Collaborative Agreement was signed by CLP Power Senior Director of Customer and Business Development Ms Lena Low (first row, left) and AA's Executive Director, Third Runway Mr Kevin Poole (first row, right), witnessed by CLP Power Managing Director Mr T K Chiang (second row, left) and Chief Executive Officer of the AA Mr Fred Lam (second row, right).

CLP Power will build new substations and power supply facilities and supply highly reliable and safe electricity for the airport's Three-runway System. Working with the

AA, CLP Power will provide the latest energy saving tools and information to help build a greener and smarter international airport for Hong Kong.

CLP Power Managing Director Mr T K Chiang said, "CLP Power is fully committed to meeting the development needs of Hong Kong International Airport. We will provide the electricity needed for the third runway and related infrastructure, and support Hong Kong's socio-economic development to maintain the city's status as an international business hub."

Chief Executive Officer of the AA Mr Fred Lam said, "AA and CLP Power are laying the foundation for another milestone that we pledge to achieve in the next few years. For a large-scale infrastructure project like the Three-runway System, a reliable source of power is of utmost importance. The agreement we are signing today will secure the power supply for the Three-runway System, both for construction as well as ongoing operations."

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited ("CLP Power") is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to 6 million people in its supply area.

About Airport Authority Hong Kong

The Airport Authority Hong Kong (AA) is a statutory body wholly owned by the Hong Kong SAR Government. Established in 1995, the AA is responsible for the operation and development of Hong Kong International Airport (HKIA). HKIA is connected to over 220 destinations around the globe. It is one of the busiest airports in the world. In 2017, HKIA handled more than 72 million passengers.
