CLP Power Rolls Out Hong Kong's First Mobile Safety Training Workshop

CLP Power Hong Kong Limited (CLP Power) has launched Hong Kong's first multi-purpose **Mobile Safety Training Workshop**, demonstrating its commitment to promote a world-class safety culture for the company and the industry. The workshop-on-wheels, created in a flatbed truck by the team from CLP Power Learning Institute, provides flexible and convenient safety training for engineering workers across different work locations.

The mobile workshop is equipped with multiple training facilities for hands-on practice on a range of safety trainings, including confined space rescue, the use of suspension relief straps, safe ladder climbing, and the tail lift operation of trucks.

It provides a safe and zero-risk learning environment, as the truck can visit different sites and depots so that frontline engineering personnel can refresh and practice their knowledge and enrich hands-on experience in key aspects of occupational safety.

The **Mobile Safety Training Workshop** has already been adopted by CLP Power in its daily operation and training schedules, the company hopes to share the innovative concept with its contractors and industry partners.

The **Mobile Safety Training Workshop** comprises a flatbed truck and a replaceable container, with a wide range of training facilities inside. Different container components can be replaced as necessary to suit different safety training needs.

Photo 3

The design team used the space in the container and the roof of the truck to simulate a confined space environment. Engineering personnel can practice emergency rescue procedures, strengthening their alertness before they start relevant site works.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited (“CLP Power”) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to six million people in its supply area. In 2021, CLP celebrates the 120th anniversary of its founding in Hong Kong with a commitment to continue to move forward with the community based on a shared vision of a better tomorrow.
