## CLP Power Encourages Employees to Receive COVID-19 Vaccination

To help build a protective barrier against COVID-19 in Hong Kong, CLP Power Hong Kong Limited (CLP Power) has taken a host of measures to encourage its employees to receive COVID-19 vaccination. CLP Power welcomes the HKSAR Government's 'Early Vaccination for All' campaign announced today (31 May), and will continue to appeal to its employees to take vaccines.

CLP Power Managing Director Mr T K Chiang said, "The health and safety of our employees are always a top priority at CLP Power. As a responsible and caring employer, we continue to take various measures during the pandemic to support our workforce such as implementing special working arrangements, providing personal protective equipment and complying with the Government's testing requirements."

"COVID-19 vaccines are one of the most important means of protecting our healthcare system from being overwhelmed, and the key to resuming normal life. We would all like COVID-19 to come to an end and vaccine is our best hope. The more people take it, the sooner will it come under control and the earlier the economy can be revitalised. Taking the vaccine protects oneself, family members and friends. It also helps build herd immunity in the community so that the economy and community activities can be revitalised earlier."

To encourage more employees to take the vaccine, CLP Power is:

- offering to make a HK\$200 donation to charities for each of Hong Kong-based employees and their family members who gets vaccinated. CLP Power will donate up to HK\$1 million in this scheme;
- participating in the Government's Outreach Vaccination Pilot Programme, providing more flexibility and convenience to employees and their relatives who are interested in getting the vaccine;
- adjusting work arrangements to facilitate employees to take the vaccine during office hours. Employees who complete two doses of vaccination will be offered time-off and hotel dining coupons; and
- arranging a vaccination health talk for a doctor to provide medical information and knowledge to employees with on-site simple medical checks.

Getting vaccinated is a personal choice. CLP Power recommends employees to consult medical advice to help decide whether or not to get inoculated and which type of vaccine to go for.

**About CLP Power Hong Kong Limited**

CLP Power Hong Kong Limited (“CLP Power”) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to six million people in its supply area.
