More Than 1,000 CLP Participants Take Part in Government's Outreach Vaccination Programme

CLP Power Hong Kong Limited ("CLP Power") has joined the Government's Outreach Vaccination Programme to facilitate employees on shift work or working in remote areas to get vaccinated against COVID-19 on company premises. The programme has received an overwhelming response with an enrolment of more than 1,100 people. Due to the high number of participants, vaccinations are carried out on four separate days. To encourage vaccinations, CLP offers to make a HK\$200 donation to charities for each of Hong Kong-based employees and their family members who have been vaccinated with two doses, up to HK\$1 million in this scheme. Time-off and hotel dining coupons will also be offered to employees who are fully vaccinated.

Accompanied by CLP Power Managing Director Mr T K Chiang, Chief Operating Officer Mr Joseph Law and Senior Director – Generation Mr Paul Tomlinson, the Secretary for the Civil Service of HKSAR Government Mr Patrick Nip and the Secretary for the Environment of HKSAR Government Mr Wong Kam-sing, visited the Outreach Vaccination Centre at Castle Peak Power Station today (25 June) in support of those who participated in the programme to get vaccinated.

"I am extremely excited to learn of the overwhelming response and would like to thank those who get vaccinated for helping build a protective barrier against COVID-19 in Hong Kong," Mr T K Chiang said.

"We would all like COVID-19 to come to an end and vaccine is our best hope. The more people take it, the sooner will it come under control and the earlier the economy can be revitalised. Taking the vaccine protects oneself, family members and friends. It also helps build herd immunity in the community so that the economy and community activities can be revitalised earlier."

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited ("CLP Power") is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to six million people in its supply area. In 2021, CLP celebrates the 120th anniversary of its founding in Hong

Kong with a commitment to continue to move forward with the community based on a shared vision of a better tomorrow.
