Update on CLP Cable Bridge Fire Incident in Yuen Long on 21 June 2022

Regarding the CLP cable bridge fire incident happened last night, CLP Power restored power to all affected customers in Tin Shui Wai at 8am this morning after re-arranging emergency power supply.

As repair works are in progress, the power supply system in the Yuen Long, Tin Shui Wai and Tuen Mun areas may experience some instability. We would appreciate the understanding of our customers if such situation occurs. Our engineering teams will continue to carry out repair works and will closely monitor the power supply in these districts. At the same time, we appeal to the residents in these areas to reduce electricity consumption in these two days so as to alleviate the load on the power supply network. CLP Power will endeavour to complete the repair works as soon as possible.

We apologise again for the inconvenience caused to the affected customers and would also like to thank relevant government departments including Fire Services Department, the Police, Electrical and Mechanical Services Department and Home Affairs Department for their support.

Customers can call our dedicated hotline 2728 8333 or contact us through the eForm on our website for assistance.

About CLP Power Hong Kong Limited
