CLP Power Clinches Renewable Energy Markets™ Asia Awards 2024

CLP Power Hong Kong Limited (CLP Power) has won the Renewable Energy Markets™ Asia Awards 2024, organised by the Center for Resource Solutions (CRS) for the company's remarkable contribution to the renewable energy development in Hong Kong. This accolade marks the second consecutive year that CLP Power has been honoured with this recognition.

CLP Power promotes Renewable Energy Certificates (RECs) through a range of channels to business and residential customers, enabling them to support the development of renewable energy in Hong Kong in a simple and effective way. The company also offers innovative and flexible options, including hourly solutions and site-specific procurement to meet the needs of different sectors and businesses.

Since the programme's launch in 2019, CLP Power has sold more than 290 gigawatt hours (GWh) of RECs, equivalent to a reduction of around 115,850 tonnes of carbon emissions associated with electricity. In recent years, an increasing number of corporate customers have signed multi-year agreements for RECs, demonstrating their commitment to sustainability.

CLP Power Senior Director of Customer Success and Experience Ms Lena Low said, "We are delighted that CLP Power has been honoured with this prestigious award. It shows that our innovative products and services are recognised by the industry and underscores our commitment to the development of renewable energy in Hong Kong." She added, "We will continue to work with customers, exploring innovative procurement methods for RECs that align with their business needs and help them achieve their decarbonisation targets in support of the Hong Kong SAR Government's goal of carbon neutrality by 2050."

The Renewable Energy Markets™ Asia Awards recognise individuals and organisations that are building markets or demonstrating leadership in green power procurement in Asia.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited (CLP Power) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong and provides a highly reliable supply of electricity and excellent customer services to more than six million people in its supply area.
