

5 October 2026

中華電力有限公司
CLP Power Hong Kong Limited**CLP's 125th Anniversary Exhibition 'Echoes of Time'*****Tracing Hong Kong's transformation, envisioning a smarter, more sustainable future***

CLP Pulse will present *Echoes of Time*, a thematic exhibition running from 6 October 2026 to 11 April 2027, as the finale of CLP's 125th anniversary celebrations. Featuring rare historic photographs and new interactive experiences, the exhibition explores the intertwined development of electricity and Hong Kong while offering visitors a glimpse into the future of smart city living.

Echoes of Time showcases more than 100 historic photographs structured around five themes — Striving Spirit, Guardianship, Our Daily Life, Joyful Moments and Accomplishments. Together, the photographs span more than a century of change in Hong Kong's cityscape, daily life, economy and technology, illustrating how reliable electricity has supported the city's growth.

New interactive exhibits and immersive experiences demonstrate how forward-looking electricity planning supports smart communities, e-mobility and low-carbon living. Visitors can also explore the role of a diversified low-carbon fuel mix in the energy transition.

CLP Power Chief Corporate Development Officer Ms Quince Chong said, "For more than a century, electricity has not only illuminated Hong Kong but also connected people, families and communities. *Echoes of Time* charts CLP's journey alongside Hong Kong and shows how reliable electricity has supported the city's transformation into an international financial centre. We will continue to support Hong Kong's development through forward-looking planning, innovative technologies and low-carbon energy, helping to build a sustainable smart city."

The CLP Pulse garden also features several new photo spots, including a Peak Tram tramcar adorned with artwork celebrating CLP's 125th anniversary and two murals by local artists inspired by the clock tower's distinctive architecture and frangipani tree. The tramcar artwork is adapted from a mural design created for the beautification of the Shing Kai Road Substation in Kai Tak, reflecting the connection between electricity and the community.

Visitors can scan QR codes at the photo spots to take pictures using exhibition-exclusive digital frames and stickers, capture their own memorable moments and share them instantly on social media.

CLP Pulse will also share a series of videos and posts on Instagram ([@clpulsehk](https://www.instagram.com/clpulsehk)), telling the stories behind the historic photographs. The public is welcome to follow the account for updates and book guided tours through the CLP Pulse website at www.clpulse.com.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited (CLP Power) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong and provides a highly reliable supply of electricity and excellent customer service to more than six million people in its supply area.

About CLP Pulse

Built in 1940, the CLP clock tower served as CLP's headquarters for more than seven decades. This magnificent landmark was graded as a Grade 1 historic building in 2018. Following its revitalisation, it was transformed into CLP Pulse, which promotes heritage, culture and green education. CLP Pulse features three regular exhibitions. **ElectriCity** traces the history of Hong Kong's electricity development; **Our Home · Our History** tells the story of the Kadoorie Family. Both exhibitions showcase the contributions of electricity and the Kadoorie Family to Hong Kong's development. **Living Craftsmanship** introduces items of traditional craftsmanship presented by the Intangible Cultural Heritage Office. CLP Pulse offers a wide range of programmes and

experiential activities for the public, sustaining its decades-long bond with the Hong Kong community.
