CLP Power E-Learning Assistance Programme Supports over 2,100 Underprivileged Students in Digital Learning

Funded by the CLP Community Energy Saving Fund, CLP Power Hong Kong Limited (CLP Power) has launched its **E-Learning Assistance Programme** for the fifth consecutive year, providing iPads to over 2,100 students from underprivileged families. The students, nominated by the Subsidised Primary Schools Council, The Association of Hong Kong Chinese Middle Schools, the Vocational Training Council and the College of Professional and Continuing Education of The Hong Kong Polytechnic University, will use the devices to strengthen their self-learning and keep pace with the growing trend of artificial intelligence (AI) and digital education.

CLP Power Chief Corporate Development Officer Ms Quince Chong said, "Digital learning is playing an increasingly important role in education. In support of the Government's efforts to promote digital education, we hope this programme will equip students in need with the right devices and give them equal learning opportunities, so they can make the most of diverse learning resources, broaden their horizons and explore new possibilities for the future."

Principal Kan Wai-hung, Chairman of programme partner The Association of Hong Kong Chinese Middle Schools, said, "Having their own digital device gives students the flexibility to build on what they learn in class, and to keep learning and exploring new knowledge after school and during the holidays. As technology advances rapidly, students need more opportunities to use digital tools and build essential 21st-century skills such as self-directed learning, innovation and problem-solving."

CLP Power also organised an AI workshop for some of the beneficiary students, showing them how AI and digital technology can support their learning. Mok Hiu-yin, a student from HKTA The Yuen Yuen Institute No.1 Secondary School who took part in the workshop, said, "In the past, whenever I came across something I did not understand, I had to work it out on my own. Now, with my own iPad and the online tools and self-learning skills I picked up at the workshop, I can follow my lessons more easily and explore knowledge anytime and anywhere, gaining more confidence in learning"

About CLP Community Energy Saving Fund

CLP has grown with the Hong Kong community for 125 years, adapting to the evolving needs of society and supporting people from all walks of life. Under the current Scheme of Control Agreement, the CLP Community Energy Saving Fund (CESF) is funded by 65% of the incentives earned by CLP from achieving energy saving targets. The CESF has launched various programmes with the aim of supporting the underprivileged, boosting the economy and promoting community-wide decarbonisation.

In 2026, HK$270 million is allocated from the CESF to continue launching a range of community support programmes to support the elderly and the underprivileged, promote energy conservation and decarbonisation, and add momentum to Hong Kong's economy.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited (CLP Power) is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong and provides a highly reliable supply of electricity and excellent customer services to more than six million people in its supply area.
