CLP Power is Named Hong Kong's Most Attractive Employer for the Third Time

CLP Power Hong Kong Limited (CLP Power) has once again been voted Hong Kong's Most Attractive Employer in the Randstad Employer Brand Awards, becoming the first company from the city to win the award three times in six years since the launch of the Awards in Hong Kong. The award was based on a public survey of 75 of Hong Kong's largest companies conducted by international human resources services firm Randstad.

Around 3,700 Hong Kong employees and job seekers aged 18 to 65 were surveyed and asked to vote for the company they most wanted to work for. Results showed 73% of the respondents indicated they were familiar with CLP Power as an employer and 63% said they would like to work for the company. They believed CLP Power offered career development opportunities, long-term job security, and a good work-life balance. Respondents also said they considered CLP Power a reputable company with a solid financial standing. Randstad has held the Most Attractive Employer Award in Hong Kong since 2013 and CLP Power was previously voted Most Attractive Employer in 2016 and 2018.

CLP Power Managing Director Mr T K Chiang said it was an honour for the company to have been repeatedly named Hong Kong's Most Attractive Employer. He said: "At CLP, we believe employees are our most valuable assets. Over the years, we have worked wholeheartedly to deliver a safe, reliable, and value for money electricity service. We will continue to serve Hong Kong with a dedication every employee can take pride in."

As the power industry moves towards a digital, low-carbon era, CLP Power's workforce was continuing to evolve, Mr Chiang said. The company embraces a 'Care for People' philosophy, striving to promote holistic employee development through a comprehensive human resources strategy, and attracting diverse and flexible professionals to achieve sustainable development.

Mr Chiang added: "We have continued to enhance our family-friendly policies in recent years to help employees balance their work and family commitments and to strengthen their sense of belonging within the company. We believe a positive and harmonious working environment enables employees to excel in their careers and contributes to business growth."

The Randstad Employer Brand Awards were launched in 1999 in Belgium by international recruitment and human resources service provider Randstad. The awards are now held in 32 countries worldwide to recognise the most attractive employers in each market.

About CLP Power Hong Kong Limited

CLP Power Hong Kong Limited ("CLP Power") is the Hong Kong utility subsidiary wholly owned by CLP Holdings Limited, a company listed on the Hong Kong Stock Exchange and one of the largest investor-owned power businesses in Asia. CLP Power operates a vertically integrated electricity supply business in Hong Kong, and provides a highly reliable supply of electricity and excellent customer services to 6 million people in its supply area.
